

FAITH OR FEAR

Formed in 1985, Faith or Fear is a thrash-hardcore band from New Jersey and actually hailed from Philadelphia in the height of its popularity in the late 1980's. FOF has played with many bands including Sepultura, Overkill, Dark Angel, Death, Morbid Angel, Wrathchild America, Forbidden, Flotsam and Jetsam, Crumbsuckers, Nuclear Assault, Biohazard, Hallow's Eve, Anvil Bitch, Hades, Deadspot, Devastation, Vicious Circle, Whiplash & many more.

After a 19-year hiatus, Faith Or Fear reformed in May 2008, and embarked on a successful string of aggressive & energetic live performances, which resulted in signing a deal with Lost & Found Records. In 2009, they recorded "INSTRUMENTS OF DEATH", a collection of previously unreleased material and re-recorded versions of some extremely rare, lost classics. Their 2012 release "TITANIUM", showcased their newest material and quite possibly their strongest to date. Most recently in 2014/2015, an increased demand for FOF's original hardcore/thrash music, has led to several appearances in South America with more shows already confirmed for 2016. The band is currently preparing for additional opportunities national & internationally.
